

Application & Care Instructions

BEFORE YOU START...

Newly painted walls need 4 weeks to outgas before our products are applied.

**Please keep the backing paper
& tube in case you need to
move the decals, or move home**

1. PEEL THE DECALS FROM THE BACKING PAPER

Larger decals require special care to avoid the design folding onto itself. Peel back just the top edge and stick it anywhere on the wall. Pull all the backing paper away from behind now. Once on the wall safely, it is easy to move them into position. You may need a second pair of hands.

2. SMOOTH THE DESIGNS TO THE WALL

Bubbles can be pushed out, or gently peel up an edge to release them.

3. TO REPOSITION, LIFT AN EDGE & PEEL OFF

WARNING

CHOKING HAZARD: Keep away from children under 3 years.
